

PANDEMIC: REOPENING SAFETY PLAN

APPENDIX K

Commuting to / from Work Protocols

Maintain physical distancing and avoid touching your face during your commute to and from the workplace especially if you use public transit.

Measures while using public transit:

- Avoid overcrowded areas of public transportation, like the waiting areas at transfer stops or crowded buses and trains.
- Wear a face mask and other items that might make you feel more comfortable.
- Maintain a safe distance from passengers at stops and on the bus or train.
- Carry your own hand sanitizer to use after entering and exiting the bus or train.
- If you carry wipes, use them to disinfect areas prior to you touching them.
- Whenever possible cover your mouth and nose with a tissue when coughing, sneezing or blowing your nose.

Consider some other methods or ways to commute:

- Ride sharing with co-workers, but do wear a mask.
- Using your own vehicle to drive to work.
- A healthy and revitalizing means to enjoy the summer weather, consider walking, riding your bicycle, if using a borrowed bike, use wipes to disinfect the touch points.

When arriving at the NAC to park your vehicle or your bicycle, use your parking pass to open the barriers to enter the garage. Try to park away from other vehicles, avoid making contact with other bicycles when placing your bike in the rack. If there are other people in the garage or near your vehicle when you exit your vehicle or while getting to your vehicle when leaving, wait for the other person to leave. Remain in your vehicle or stand and wait at a distance until the other person has left the immediate area.

Outside Stage Door will continue to be the area for delivery vehicles and emergency vehicles, be cautious when you are in this area of moving vehicles or pedestrians in the area, and keep your distance.
